XLA AGRICULTURAL MULCHER

DESCRIPTION :

Super-reinforced folding mulcher with a working width of up to 6 metres, designed for large-scale operations such as maize, cotton, extensive grasslands, airports and similar applications.

The machine features a robust design with two shredding units, one positioned above the other, ensuring complete shredding with no residues left behind.

Equipped with a 270 mm diameter rotor tube with a 14 mm wall thickness, and 20 mm hammer supports (total rotor + hammer diameter: 540 mm).

The machine is supplied as standard with an adjustable rear roller, with the option of rear wheels available.

INCLUDES:

- Reinforced chassis in high-yield steel, 8 + 8 mm thickness.
- Rear roller with adjustable height.
- Two Bondioli 2081 drive units.
- Super-reinforced central frame.
- Original Fernandez hammer, 3.1 kg.
- Three rows of counter-hammers, 10 mm thick, per shredder.
- Rotor: 270 mm diameter, 14 mm thick (TOTAL 540 mm).
