

# PSR STONE CRUSHER

# PSR STONE CRUSHER

## DESCRIPTION :

Compact stone crusher suitable for low-power tractors from 90 HP to 150 HP. Its reduced and optimised dimensions make it ideal for use in vineyards and fruit orchards. The adjustable blade allows a finer or coarser crushing result, depending on the requirements of each operation.

## INCLUDES :

- High-yield steel chassis.
- Double, replaceable base plate in HARDOX 400 steel.
- Adjustable sliding skids in HARDOX 400 steel.
- Penetration skids.
- Fixed hammer rotor.
- Not suitable for so-called river stones or rounded pebbles.
- Maximum working depth: 12 cm.
- Hydraulic rear door.
- Front chain protection. Internal side protection.
- Dosing blades.
