TJP AGRICULTURAL MULCHER

DESCRIPTION :

Professional, heavy-duty mulcher, equipped with a **double feeding system and no screen**, featuring an **opening pick-up system**.

In this range, the **upper feeder automatically adapts**, adjusting its opening according to the volume of pruning material encountered, **optimising material intake and improving overall efficiency**.

The resulting mulch is **evenly distributed**, with a **uniform finish and fine texture**.

Specially designed to **collect and shred all types of pruning residues**, including those from **olive groves, orchards, almond and walnut trees**, as well as **branches up to 30 cm in diameter**.

All blades are manufactured from **wear-resistant steel**, as are the **feeding bars**.

Extremely robust and heavy machine, built for **intensive professional use**.

INCLUDES:

- Reinforced chassis manufactured from high-strength DOMEX steel
- FER-03 oscillating hammers in wear-resistant steel
- Single-side transmission system
- Pick-up system driven by hydraulic motor and chain
- PTO speed: 1000 r.p.m. or 540 r.p.m.
- Pins
- Overrunning clutch (freewheel)
- Bondioli & Pavesi 2081 gearbox and transmission
- Rear anti-projection rubber flap
- Three rows of interchangeable counter-hammers
- Movable or fixed blades
- Support wheels
- 5 toothed XPC V-belts
- Side support skids
- Bondioli 2081 gearbox with overrunning clutch
- Automatic belt tensioner
- Rotor dynamically balanced at 2,100 r.p.m.
